REPLY UNDER 37 CFR 1.111

REMARKS

Claims 10-12 and 17 have been rejected under 35 U.S.C. § 101 because "the claimed invention is drawn to an invention with no apparent or disclosed specific and substantial credible utility." Specifically, the Examiner asserts that "the instant application does not disclose the biological role of this protein or its significance." The Examiner further objects to the specification under 35 U.S.C. § 112, first paragraph, for the same reasons. Applicants respectfully traverse these rejections for the reasons that follow.
